New This Year!

Attention Contractors

We now offer a “Contractor Gate Opening Service” for contractors doing home improvement or construction work within the Town of Lincoln. This service will enable area contractors to dump off allowable materials on Wednesdays or Thursdays. A 24-hour notice is required to schedule a gate opening. There is a \$50.00 fee for this service and must be paid at the time of the gate opening. This service is not for after hours or on holidays. Scheduling is done by calling the Transfer Station at 207-794-2621 or the Public Works Department at 207-794-6658 during normal business hours.

ESTABLISHED 1829

- * Tin cans
- * Pots & Pans
- * Appliances
- * Bicycles
- * Scrap metal

Glass:

- * Food grade only
- * Remove labels and lids
- * Separate bins for clear, brown, and green glass

What is Recycling? It is the process of collecting materials that have been discarded and are considered waste and reprocessing them.

Recycling saves the space that is used for waste disposal. A major portion of the landfill space today is filled with materials that could have been recycled. With landfill space at capacity any reduction in waste is a benefit. Protecting our environment and reducing costs are just two of the benefits. Hazardous waste is a big concern as it can leak toxic and corrosive chemicals into the environment.

Here at the Town of Lincoln Transfer Station we recycle a wide range of materials. Recycling not only reduces the price we pay at PERC (Penobscot Energy Recovery Company) but we also can sell most of the material to help offset our operating cost.

Take or Leave Station Guidelines

Don't Leave:

Tires
AC Units
Refrigerators
T.V.'s
Paint
Food Items
Nothing broken or in disrepair

Construction Materials:

Please see attendant for an inspection of the items. The attendant will decide if the materials go on the Take or Leave Pile or discarded in the appropriate disposal station.

This station is a privilege, please respect the guidelines so this station can remain open for all to utilize.

Violators will be penalized.

Recycling

Permits

Permits are available on-site at the Transfer Station. Please see an attendant for assistance.

Refrigerant Appliance: Refrigerator, air conditioners and dehumidifiers will require a disposal permit. Permits are \$20.00 per item. Please note that items containing refrigerant cannot be left on the free for the taking pile.

Demolition Debris: Shingles, sheetrock and wood also require permit prior to drop off. Please note that shingles and sheetrock have designated pile.

Wood Burn Pit: Clean wood only, it must be free of metal, insulation, roofing material, cardboard or trash. When burning please leave debris on the landing, please do not throw items over cones or chain into burning area. No Pressure Treated Lumber or composite wood.

Tires: Rimless tires up to 17 inches can be placed in the hopper. All others will be placed in tire pile which require a permit. Please note we cannot take any tires still on rims.

Fees

Treated/Composite Lumber	\$5.00 per cubic yard
Demo Lumber	\$5.00 per cubic yard
Furniture	\$5.00 per piece
Asphalt Shingles	See Attendant
Drywall	See Attendant
AC/Refrigerator/Freezer	\$20.00 each
Tires up to 17" Diameter/Passenger Car	\$1.00 each
Medium/Heavy Truck Tires	\$8.00 each
Equipment Tires	\$25.00 each

All fees can be paid at the Transfer Station Office

Conversion Chart

A pick up truck or small trailer	1 cubic yard
A pick up truck and small trailer	2 cubic yards
A large trailer up to 12 feet	2 cubic yards
A large trailer over 12 feet	3 cubic yards
1 ton dump trailers or 1 ton dump trucks	4 cubic yards
10 ton dump trucks	6 cubic yards
20 ton dump trucks	12 cubic yards

Tips On How You Can Help

Cardboard: Please break down boxes and nest your smaller ones into larger ones. Place all cardboard in bins or in front of the baler in the recycle building. Make sure to remove all plastic from packing. This includes: blister pack, film, windows, bags, Styrofoam and packing peanuts.

We cannot recycle dirty cardboard and any wax coated cardboard. If you can scratch with your fingernail, and it leaves a residue, it's wax coated.

Paper: Bundle paper in stacks and tie with twine or stack in a paper bag and place in the paper bin, bag and all. Shredded paper (please leave in the plastic bag) also goes in the paper bin along with books with hard covers removed. We cannot recycle wax covered or label backings and paper with food residue goes in regular trash. Remember, if it's paper and clean, it can be recycled!

Plastic: Please empty and rinse containers. Sort #2 from the others. We can recycle most plastic including bulky items. We cannot recycle bags or films, vinyl siding or PVC pipes. If you are not sure just ask; we will be happy to help!

Metal: Please rinse your tin cans; you can leave the label on. We recycle all metals. Items that have partial metal can go right in the metal pile such as ironing boards, office chairs, play pens etc.

Glass: Food grade glass with lids and labels removed. Bins are designated clear, brown, and green.

Unacceptable Waste

Asbestos: Contact DEP or Code Enforcement Officer

Rimmed Tires: Rims must be removed

Paint: (Check with local hardware outlets)

Gas & Antifreeze

Dead Animals

Medical Waste

Flooring: Must be cut into 3 foot squares. This includes rugs, linoleum, carpet, backing, canvas and tarps.

Non-Recyclable Plastics: Must be cut into 3 foot sections. This includes vinyl siding, PVC pipes, pool liners and garden hoses.

Porcelain & Glass: Toilets and sinks. Please place in designated area beside drywall/shingle station. Ask an Attendant for assistance with glass.

TV's, Computers & Monitors: Please place on pallet in front of the mercury building. This is located to the left of the road entering the facility.

Mercury: Bulbs, thermostats and any other mercury containing items. Please see attendant.

Brush: Place on brush collection area, please do not throw brush over cones or chain.

Yard Waste, Compost: Leaves, grass clippings, plants, vegetable matter and animal bedding. Place in the pile on the right side of road exiting the facility. Please do not leave bags, pots or trash in this area.

Pay Sites

Furniture: Couches, stuffed chairs and mattresses. Please put in the furniture pile on the right side of the recycling building.

Pressure Treated Lumber/Composite Wood: Place into hopper. 6' pieces or smaller.

Things To Remember

Recycle bins are located just inside the recycle building. If you have larger items please always use caution and ask an Attendant for assistance. We are always happy to help!

- 1: Recycle Building
- 2: Burn Pit
- 3: Hopper
- 4: Mercury Building
- 5: Brush Pile
- 6: Compost
- 7: Furniture
- 8: Sheetrock
- 9: Metal
- 10: Porcelain & Cement

Please obey all signs.

Recycle Way is a one-way circle.

Please drive all the way around.
